PRELIMINARY AMENDMENT

Sir:

Preliminary to examination of the present application, Applicants respectfully request that the Examiner enter the following amendment:

IN THE CLAIMS:

Please add claims 10 through 103.

RECEIVED

APR 30 2001

Technology Center 2600

~~10.~~ (New) An apparatus, comprising:

- a) a phase lock loop that provides an output signal that changes from having a first frequency in order to receive a GPS baseband signal to having a second frequency in order to receive or transmit a wireless channel baseband signal, wherein said GPS baseband signal is carried in a first modulated format by a first carrier signal, wherein said
